

Drysedale Primary School

ASTHMA POLICY

PURPOSE

Drysedale Primary School is committed to ensuring the safety of students with Asthma. This policy is to ensure that Drysedale Primary School appropriately supports students diagnosed with asthma.

OBJECTIVE

To ensure a consistent approach to the management of asthma and to clearly communicate the processes and procedures in place to support students diagnosed with asthma to parents/carers, staff and students.

SCOPE

This policy applies to:

- all staff, including casual relief staff, contractors and volunteers
- all students who have been diagnosed with asthma or who may require emergency treatment for asthma and their parents/carers.

POLICY

Asthma

Asthma is a long term lung condition. People with asthma have sensitive airways in their lungs which react to triggers, causing a 'flare-up'. In a flare-up, the muscles around the airway squeeze tight, the airways swell and become narrow and there is more mucus. This makes it hard to breathe. An asthma flare-up can come on slowly (over hours, days or even weeks) or very quickly (over minutes). A sudden or severe asthma flare-up is sometimes called an asthma attack.

Symptoms

Symptoms of asthma can vary over time and often vary from person to person. The most common asthma symptoms are:

- breathlessness
- wheezing (a whistling noise from the chest)
- tight feeling in the chest
- persistent cough

Symptoms often occur at night, early in the morning or during/just after physical activity. If asthma is well controlled, a person should only have occasional asthma symptoms.

Drysdale Primary School

Triggers

A trigger is something that sets off or starts asthma symptoms. Everyone with asthma has different triggers. For most people with asthma, triggers are only a problem when asthma is not well controlled with medication.

Common asthma triggers include:

- Exercise
- Smoke (cigarette smoke, wood smoke from open fires, burn offs or bushfires)
- Dust mites
- Pollens
- Chemicals such as household cleaning products, deodorants, perfumes or hairspray
- Food additives
- Emotions such as stress or laughter
- Colds / flus
- Weather changes such as thunderstorms and cold dry air
- Mould
- Animals
- Certain medications, including aspirin and anti-inflammatories

Asthma Management

When a student diagnosed with asthma enrolls at Drysdale Primary School:

1. Parents/carers must provide the school with an Asthma Care Plan which has been completed by the student's medical practitioner. The plan must outline:
 - the prescribed medication taken by the student and when it is to be administered, for example as a pre-medication to exercise or on a regular basis
 - emergency contact details
 - the contact details of the student's medical practitioner
 - the student's known triggers
 - the emergency procedures to be taken in the event of an asthma flare-up or attack.
2. Parents/carers should also provide a photo of the student to be included as part of the student's Asthma Care Plan.
3. Drysdale Primary School will keep all Asthma Care Plans and kits in the Admin office and sick bay.
4. Staff may also work with parents/carers to develop a Student Health Support Plan.
5. If a student's asthma plan advises medication before exercise, class teachers will send students to the office prior to sport sessions.
6. If a student diagnosed with asthma is going to attend a school camp or excursion, Drysdale Primary School parents/carers are required to provide any updated medical information.

Drysdale Primary School

7. If a student's asthma condition or treatment requirements change, parent/carers must notify the school and provide an updated Asthma Care Plan.
8. School staff will work with parents/carers to review Asthma Care Plans (and Student Health Support Plans) as required each year.

Student Asthma Kit

All students diagnosed with asthma are required to provide a student asthma kit at school which contains:

- their own prescribed reliever medication labelled with the student's name
- their spacer (if they use one)

Student asthma kits will be stored in a container in the sick bay. Students may also keep an additional asthma kit with them in their school bags for use before and after school, however, if reliever medication is required during school hours the student must use the kit kept in sick bay to ensure adequate supervision and access.

Asthma Emergency Response Plan

If a student is:

- having an asthma attack
- having difficulty breathing for an unknown cause, even if they are not known to have asthma

Drysdale Primary School staff will endeavour to follow the Asthma First Aid procedures outlined in the table below. School staff may contact Triple Zero "000" at any time.

Step	Action
1.	Sit the person upright <ul style="list-style-type: none"> • Be calm and reassuring • Do not leave them alone • Seek assistance from another staff member or reliable student to locate the student's reliever, the Asthma Emergency Kit and the student's Asthma Care Plan (if available). • If the student's action plan is not immediately available, use the Asthma First Aid as described in Steps 2 to 5.
2.	Give 4 separate puffs of blue or blue/grey reliever puffer: Shake the puffer <ul style="list-style-type: none"> • Use a spacer if you have one • Put 1 puff into the spacer • Take 4 breaths from the spacer Remember – Shake, 1 puff, 4 breaths
3.	Wait 4 minutes

Drysdale Primary School

	<ul style="list-style-type: none"> If there is no improvement, give 4 more separate puffs of blue/grey reliever as above or treat as per provided individual asthma plan
4.	<p>If there is still no improvement call Triple Zero “000” and ask for an ambulance.</p> <ul style="list-style-type: none"> Tell the operator the student is having an asthma attack Keep giving 4 separate puffs every 4 minutes until emergency assistance arrives
5.	<p>If asthma is relieved after administering Asthma First Aid, stop the treatment and observe the student. Notify the student’s emergency contact person and record the incident</p>

Staff will call Triple Zero “000” immediately if:

- the person is not breathing
- if the person’s asthma suddenly becomes worse or is not improving
- if the person is having an asthma attack and a reliever is not available
- if they are not sure if it is asthma
- if the person is known to have anaphylaxis

Training for Staff

Drysdale Primary School will arrange the following asthma management training for staff:

Staff	Completed by	Course	Provider	Cost	Valid for
Group 1 General Staff	School staff with a direct teaching role with students affected by asthma or other school staff directed by the principal after conducting a risk assessment.	Asthma first aid management for education staff (non-accredited) One hour face-to-face or online training.	The Asthma Foundation of Victoria	Free to all schools	3 years
Group 2 Specific Staff	Staff working with high risk children with a history of severe asthma, or with direct student wellbeing responsibility, (including nurses, PE/sport teachers, first aid and school staff attending camp)	Course in Management of Asthma Risks and Emergencies in the Workplace 22282VIC (accredited) OR Course in Emergency Asthma Management 10392NAT (accredited)	Any RTO that has this course in their scope of practice	Paid by Drysdale Primary School	3 years

Drysdale Primary School is a fully inclusive school promoting the safety of all students including those with a disability as well as the cultural safety of all students particularly those who are vulnerable due to an Indigenous, cultural or linguistic background.

Drysedale Primary School

Drysedale Primary School will also conduct an annual briefing for staff on:

- the procedures outlined in this policy
- the causes, symptoms and treatment of asthma
- identities of the students diagnosed with asthma
- how to use a puffer and spacer
- the location of:
 - the Asthma Emergency Kits
 - asthma medication which has been provided by parents for student use.

Drysedale Primary School will also provide this policy to casual relief staff and volunteers who will be working with students, and may also provide a briefing if the principal decides it is necessary depending on the nature of the work being performed.

Asthma Emergency Kit

Drysedale Primary School will provide and maintain at least two Asthma Emergency Kits. One kit will be kept on school premises in the sick bay and in yard duty bags, and camp and excursion kits.

Drysedale Primary School will keep an additional kit for every 300 students.

The Asthma Emergency Kit will contain:

- at least 1 blue or blue/grey reliever medication such as Airomir, Admol or Ventolin
- at least 2 spacer devices (for single person use only) to assist with effective inhalation of the blue or blue/grey reliever medication (Drysedale Primary School will ensure spare spacers are available as replacements). Spacers will be stored in a dust proof container. The school use disposable, single use spacers.
- clear written instructions on Asthma First Aid, including:
 - how to use the medication and spacer devices
 - steps to be taken in treating an asthma attack
- A record sheet/log for recording the details of an asthma first aid incident, such as the number of puffs administered.

The Chief First Aid Officer will monitor and maintain the Asthma Emergency Kits. They will:

- ensure all contents are maintained and replaced where necessary
- regularly check the expiry date on the canisters of the blue or blue/grey reliever puffers and replace them if they have expired or a low on doses
- replace spacers in the Kits after each use (spacers are single-person use only)
- dispose of any previously used spaces.

Drysedale Primary School

The blue or blue/grey reliever medication in the Asthma Emergency Kits may be used by more than one student as long as they are used with a spacer. If the devices come into contact with someone's mouth, they will not be used again and will be replaced.

After each use of a blue or blue/grey reliever (with a spacer):

- remove the metal canister from the puffer (do not wash the canister)
- wash the plastic casing, and sanitise
- rinse the mouthpiece through the top and bottom under running water for at least 30 seconds
- wash the mouthpiece cover
- air dry then reassemble
- test the puffer to make sure no water remains in it, then return to the Asthma Emergency Kit.

Management of Confidential Medical Information

Confidential medical information provided to Drysdale Primary School to support a student diagnosed with asthma will be:

- recorded on the student's file
- recorded on the students Sentral profile
- stored in a file at the front office
- shared with all relevant staff so that they are able to properly support students diagnosed with asthma and respond appropriately if necessary.

Communication Plan

This policy will be available on Drysdale Primary School's website so that parents and other members of the school community can easily access information about Drysdale Primary School's asthma management procedures.

Epidemic Thunderstorm Asthma

Drysdale Primary School will be prepared to act on the warnings and advice from the Department of Education and Training when the risk of epidemic thunderstorm asthma is forecast as high. Such actions may include cancelling outside activities.
