DPS Year 4-6 Managed Bring Your Own Device (BYOD) Program for 2024

Dear Parents and Carers,

In 2024 Drysdale Primary School (DPS) will be continuing to offer a Managed Bring Your Own Device (BYOD) Program to students in Year 4 – Year 6.

Drysdale Primary School (DPS) understands the importance of digital technology as a teaching and learning tool. The integration of the BYOD program for students in Years 4-6 opens numerous possibilities for a more dynamic and interactive learning experience. By leveraging technology, teachers can deliver content in innovative ways, incorporate multimedia resources and engage students through various interactive tools and applications that not only enhances the curriculum but also cultivates crucial skills and attitudes that are vital for students to thrive throughout their future school years and beyond.

To assist you with costs we have made available four different devices for you to choose from. There are three options for Windows devices and one Chromebook option this year.

DPS strongly recommends families purchase the 3 year Accidental Damage Protection insurance if your Home and Contents Insurance does not have extra's cover that includes damage to devices.

Devices can also be obtained from an alternative supplier of your choice. Recommended minimum Windows laptop specifications are:

- Processor Celeron N100 / RAM 4GB / Hard drive 128GB SSD

However, if you do purchase from a different supplier please note the following:

- Chromebook devices require a licence which is included in the price when purchased via the JB HiFi portal. This may not be included if sourced elsewhere, incurring a further cost.
- you will be solely responsible for any hardware issues that may arise (e.g. warranty claims), so please pay attention to the details and **ensure that the specifications are exactly as listed.**
- DPS will only be able to offer limited software support to an alternative method of purchase.
- Full hardware and software support will be available by DPS **ONLY** if you purchase through the JB Hi Fi portal.

To access the suppliers portal please follow the link below and use **DRYSDALE2024** as the school code.
<https://www.ibeducation.com.au/byod>

Please see the following pages for our recommendations and information on the four devices on offer.

If you have any further queries, please feel free to contact the school.

Kind Regards

Glen Lauder
